EXPERIENCE

Software Engineer Manager   *Jan 2024 - Present*
PedidosYa | Buenos Aires, Argentina

Leadership of the shopping cart and price calculation team. My main responsibilities include planning, coordination and dependency management of our projects. I foster a positive and agile work culture, and I am in charge of developing talent within the team.

Principal Software Engineer   *Mar 2022 - Dec 2023*
PedidosYa | Buenos Aires, Argentina

Technical leadership in the fintech tribe working with microservices (Kotlin, Go + AWS). Responsible for the design and implementation of maintainable and scalable solutions, coordinating with other teams, and promoting good development practices seeking the best balance to maximize the value delivered.

Software Engineer Backend   *Jul 2020 - Feb 2022*
PedidosYa | Buenos Aires, Argentina

Analysis and development in the wallet team, implementing solutions in different languages such as Kotlin and Go in a microservices ecosystem.

Software Engineer Full Stack   *Nov 2017- Jun 2020*
Almundo | Buenos Aires, Argentina

Analysis and development, implementing solutions with various backend and frontend technologies such as Java, Rust, NodeJs, Angular and AngularJS for web applications.

Software Engineer Full Stack   *Mar 2014- Oct 2017*
BDF Technology Solutions | Buenos Aires, Argentina

Analysis and development, implementing solutions with various backend and frontend technologies such as Java, JavaScript, AngularJS, NodeJS and PrimeFaces for web and desktop applications.

EDUCATION

Information Systems Engineering, completed   *2011 - 2016*
UTN FRBA | Buenos Aires, Argentina
